The Canadian resource equipment sector comprises a number of different types of industries, including manufacturers of equipment for agriculture, materials handling, construction, mining, forestry, and oil and gas fields. Typically, Canadian production by both large and small companies is limited to a narrow range of equipment, and tends to focus on custom-engineered machinery. This document focuses on resource equipment. Topics covered are: agricultural machinery; materials handling equipment; construction machinery; mining equipment; forestry equipment; and, oil and gas field equipment.
