strippers. The beautiful and sultry Rene leads her trio of vampire strippers from (around) Saturn to destroy Earth. Their demonic foes-the plots-have hunted them across time; Earth is the last remaining planet with sentient life in this version of the universe. Rene's love affair with a man who is half-horse, half-boy in a future version of Earth threatens her desire to inspire the apocalypse; if the vampire strippers fail to destroy the world now, men will be nearly extinct, and women will be hunted for sport by the surviving males. True love, time travel, bad music, shapeshifting plots, and a brooding supernatural detective named Will decide the fate of Earth in more than two realities. Can Rene prevent an apathetic future while

Author John Jacob Astor met his end in the sinking of the Titanic. Though he was born into wealth, Astor achieved fame as a popular science fiction writer. In this, his best-known work, Astor spins a captivating tale of what life would be like in the twenty-first century, including many technological predictions that are amazingly accurate.

Obsession with the Paranormal, S. Douglas Woodward reveals the hidden history of Nazi infestation of American institutions after World War II. Beginning with the 1952 flying saucer flap over the nations capital and concluding with the CIA's clandestine mind control agenda of the 1950s-1970s, the reader is confronted with highly charged and seldom known facts. The story centers on America's erstwhile alliance with German fascism linked to the infamous personalities of Hitler's Nazi Party who escaped the war crimes trials at Nuremberg. In this second volume of Power Quest, The Ascendancy of Antichrist in America, Woodward brings to the reader the recently declassified proof our America has often

shunned its most noble ideals. The author uncovers a vast record of unethical and deceptive Federal activities committed in Washington's darkened corridors of political power. Woodward condenses mountains of highly reliable research compiled by authoritative investigative journalists and insiders along with his own well-turned analysis, demonstrating that the political and spiritual evil of Nazism was often excused and encouraged by American officials as part of a blind quest to fight communism during the Cold War. Woodward makes no secret of his evangelical perspective. But *Power Quest: The Ascendancy of Antichrist in America* is not a selective proof texting of biblical assertions or a

diatribe against liberal political views. His account is a factual history that most Americans have never heard. For conservative Christian readers, Woodward speaks prophetically - challenging the cherished assumption held by political conservatives that America traditionally takes the moral high ground. And he poses an alternative view to the typical eschatological position, asking "Could America be the seat of power for a literal personage the Bible calls Antichrist?"

The first original Buck Rogers in the 25th Century(r) adventure in over three decades! Set in the continuity of the original series, Draconian Fire Part 1: Lo, the Rings of Saturn is the first of three novellas that fill in the gap between the first and second seasons of the 1979 disco scifi TV show Buck Rogers in the 25th Century(r). Join Buck, Wilma, Princess Ardala and Commander Kane as they face a threat that will either unite the known systems, or instigate all out war. On an undercover mission to save the Earth from an ecological disaster, Buck finds himself trapped on an icy prison moon packed full of his

This is the HARDBACK version. Buck Rogers in the 25th Century (1979-1981) premiered on American television in September 1979. The story followed a twentieth century astronaut revived after 500 years of suspended animation to become Earth's greatest hero. Created by Glen A. Larson and Leslie Stevens, the new series starred Gil Gerard, Erin Gray, and Felix Silla. Gerard looked to the past to prepare for

his future production. As Executive Producer of another science fiction series, Battlestar Galactica (1978-1979), the early cancellation of the failed series left him with a quasar of props, costumes, sets, special effects film footage, and even a rejected model spacecraft designed by Ralph McQuarrie. He hit on the idea of recycling the artifacts into a less showy series that premiered to the delight of audiences. Viewers thrilled to a seemingly endless parade of notable guest stars, such as Henry Silva, Joseph Wiseman, Jack Palance, Roddy McDowall, John P.
