From one of the greatest prose stylists of any generation, the essay that inspired the theme of the 2019 Met Gala, *Camp: Notes on Fashion* Many things in the world have not been named; and many things, even if they have been named, have never been described. One of these is the sensibility—unmistakably modern, a variant of sophistication but hardly identical with it—that goes by the cult name of “Camp.” So begins Susan Sontag’s seminal essay “Notes on ‘Camp.’” Originally published in 1964 and included in her landmark debut essay collection *Against Interpretation*, Sontag’s notes set out to define something that even the most well-informed could describe only as “I know it when I see it.” At once grounded in a sweeping history (Louis XIV was pure Camp) and entirely provisional, *Camp* delights in low and high culture alike. Tiffany lamps,

the androgynous beauty of Greta Garbo, King Kong (1933), and Mozart all embody the Camp sensibility for Sontag—an almost ineffable blend of artifice, extravagance, playfulness, and a deadly seriousness. At the time Sontag published her essay, Camp, as a subversion of sexual norms, had also become a private code of signification for queer communities. In nearly every genre and form—from visual art, décor, and fashion to writing, music, and film—Camp continues to be redefined today, as seen in the 2019 Met Gala that took Sontag’s essay as the basis for its theme.

“ Style is everything, ” Sontag tells us, and as Time magazine points out, “ ‘ Notes on “ Camp ” ’ launched a new way of thinking, ” paving the way for a whole new style of cultural criticism, and describing what is, in many ways, the defining sensibility of our culture today.

NEW YORK TIMES BEST SELLER • A Best Book of 2021: Entertainment Weekly, Good Morning America, Wall Street Journal, and more From the indie rockstar of Japanese Breakfast fame, and author of the viral 2018 New Yorker essay that shares the title of this book, an unflinching, powerful memoir about growing up Korean American, losing her mother, and forging her own identity. In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high

expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

"Margaret Cargill's background as a linguist and research communications educator and Patrick O'Connor's experience as both research scientist and educator synergize to improve both the science and art of scientific writing. If the authors' goal is to give scientists the tools to write and publish compelling, well documented, clear narratives that convey their work honestly and in proper context, they have succeeded admirably." *Veterinary Pathology*, July 2009
"[The book is] clearly written, has a logical step-by-step structure, is easy to read and contains a lot of sensible advice about how to get scientific work published in international journals. publication in international, peer reviewed journals. The book is designed for scientists who use English as a first or an additional language; for research students and those who teach them paper writing skills; and for early-career researchers wanting to hone their skills as authors and mentors. It provides clear processes for selecting target journals and writing each section of a manuscript, starting with the results. The stepwise learning process uses practical exercises to develop writing and data presentation skills through analysis of well-written example papers. Strategies are presented for responding to referee comments, as well as ideas for developing discipline-specific English language skills for manuscript writing. The book is designed for use by individuals or in a class setting. Visit the companion site at www.writeresearch.com.au for more information.

This edited collection captures the expertise of scholars from the US, the UK, Australia, and Canada to catalog the rise in visual approaches in criminology. It presents examples of visual methods, uses, and approaches in criminology; assesses the potential for new graphic approaches to collect, analyze, and present data; and provides some analysis of the use of images in teaching, to spur social critique, and guide policy translation. The collection visually connects theory and practice by highlighting the work of criminologists who have embraced the visual turn. Contributors explore the use of cognitive maps, concept and mind maps, life history calendars, CCTV, life plots, GIS and hot spot research, policy graphs, visual abstracts and research summaries, and other visual tools in the context of criminology. Approaches building on visual sociology are also featured, including a discussion of developments in documentary photography and film, visual ethnography, and sensory phenomenology. The book is organized thematically, with each chapter

following logically upon the last, introducing readers to a variety of visual approaches and their application in criminology. The goals of this collected volume are three-fold. The first is to highlight how the visual has been used in criminology historically to present data, contest meaning and complicate social control, and make more transparent the research process. The second is to work toward some sort of definitional consistency. While a worthy endeavor, this remains elusive given the assortment of uses and varying traditions from which visual criminology has emerged. The third is to try to think clearly about the role of humility. This means a willingness to acknowledge an epistemological framework and note the variety of limitations associated with trying to understand in deep and meaningful ways. For visual criminology specifically, it involves the recognition that part of the power of images (whatever their construction), comes from whether we think they are beautiful or whether and/or to what extent they disrupt our understanding in one way or another. This interdisciplinary book will be of interest to criminologists, sociologists, visual ethnographers, historians and those engaged with media studies. It is a valuable supplementary text for courses in introductory criminology and criminal justice, criminological theory, research methods, and other upper-level and senior capstone courses.

"The object of this essay is to explain as clearly as I am able, the grounds of an opinion which I have held from the very earliest period when I had formed any opinions at all on social or political matters, and which, instead of being weakened or modified, has been constantly growing stronger by the progress of reflection and the experience of life: That the principle which regulates the existing social relations between the two sexes- the legal subordination of one sex to
