The story of the origins and development of Peter Cundill's pioneering investment journey.

The second edition enables psychologists to gain a better understanding of what is unique and intriguing about this area of study. It follows a groundbreaking visual approach that helps them quickly and easily learn the subject. With numerous illustrations and graphics, the book brings complex concepts to life. The links between theory and application are also clearly presented. Psychologists will benefit from this visually-oriented look into the field because it 's more engaging than other resources.

A beautiful and eerie story of love and memory from the author of The Moon Field.

This accessible text explores the staggering rise in inequality in recent years. It includes recent empirical material on all the key dimensions of inequality, including class, gender, ethnicity, age and disability, and considers both classical and new
