A nursing diagnosis is defined as a clinical judgement about individual, family or community responses to actual or potential health problems or life processes which provide the basis for selection of nursing interventions to achieve outcomes for which the nurse is accountable. Accurate and valid nursing diagnoses guide the selection of interventions that are likely to produce the desired treatment effects and determine nurse-sensitive outcomes. Nursing diagnoses are seen as key to the future of evidence-based, professionally-led nursing care – and to more effectively meeting the need of patients and ensuring patient safety. In an era of increasing electronic patient health records standardized nursing terminologies such as NANDA, NIC and NOC provide a means of collecting nursing data that are systematically analyzed within and across healthcare organizations and provide essential data for cost/benefit analysis and clinical audit. ‘Nursing Diagnoses: Definitions and Classification’ is the definitive guide to nursing diagnoses worldwide. Each nursing diagnosis undergoes a rigorous assessment process by NANDA-I with stringent criteria to indicate the strength of the underlying level of evidence. Each diagnosis comprises a label or name for the diagnosis and a definition. Actual diagnoses include defining characteristics and related factors. Risk diagnoses include risk factors. Many diagnoses are further qualified by terms such as effective, ineffective, impaired, imbalanced, readiness for, disturbed, decreased etc. The 2009-2011 edition is arranged by concept according to Taxonomy II domains (i.e. Health promotion, Nutrition, Elimination and Exchange, Activity/Rest, Perception/Cognition, Self-Perception, Role Relationships, Sexuality, Coping/ Stress Tolerance, Life Principles, Safety/Protection, Comfort, Growth/Development). The book contains new chapters on ‘Critical judgement and assessment’ and ‘How to identify appropriate diagnoses’ and core references for all nursing diagnoses. A companion website hosts NANDA-I position statements, new PowerPoint slides, and FAQs for students. 2009-2011 edition arranged by concepts New chapters on ‘Critical judgement and assessment’ and ‘How to identify appropriate diagnoses’ Core references for new diagnoses and level of evidence for each diagnosis Companion website available

Revised for nursing students, educators, and practicing nurses, this complete reference contains almost 100 comprehensive clinical care plans for adult patients in medical-surgical units. New to this edition are care plans for acute alcohol withdrawal, hypertensive crisis, Parkinson's disease, sickle cell disease, transplantation, and end of life.

Buku Proses Keperawatan; Pendekatan NANDA, NIC, NOC, SDKI merupakan buku yang menyajikan konsep dasar proses keperawatan, mulai dari bagaimana cara melakukan pengkajian keperawatan, cara melakukan atau menegakkan diagnosis keperawatan, cara membuat atau menyusun rencana keperawatan, cara melakukan intervensi keperawatan serta cara melakukan evaluasi keperawatan. Buku ini ditulis untuk memenuhi kebutuhan dan tuntutan perkembangan ilmu keperawatan, yang disesuaikan dengan kurikulum terbaru. Sehingga dapat digunakan sebagai alternatif bacaan atau referensi mahasiswa keperawatan.

Revised to incorporate the latest NANDA-approved nursing diagnoses, the Eleventh Edition of this classic text offers definitive guidance on key elements of nursing diagnosis and its application to clinical practice. Section 1 thoroughly explains the role of nursing diagnosis in the nursing process and in care planning. Section 2 is a comprehensive A-to-Z guide to current nursing diagnoses. Section 3 focuses on collaborative problems. This edition lists associated NIC (Nursing Interventions Classifications) and NOC (Nursing Outcomes Classifications) for every NANDA diagnosis. New diagnoses added and modified in accordance with the latest NANDA meeting are in an appendix for easy access.

Peran perawat onkologi sebagai pemberi asuhan keperawatan dapat dilakukan dengan memperhatikan kebutuhan dasar pasien secara detail dan terfokus, sehingga dapat memberikan asuhan keperawatan onkologi yang optimal. Perawat juga diharapkan dapat melaksanakan tindakan keperawatan berbasis bukti atau Evidence Based Nursing (EBN). Buku Keperawatan Onkologi ini memberikan gambaran bagaimana menyusun asuhan keperawatan pada pasien kanker berdasarkan teori keperawatan Virginia Henderson. Konsep teori Henderson sangat tepat untuk dijadikan dasar dalam pemberian asuhan keperawatan pada pasien dengan keganasan agar lebih memandirikan pasien dalam memenuhi kebutuhan dasar guna melanjutkan kehidupan dan menerima penyakitnya. Pada pasien dengan tumor atau keganasan, pasien dapat mengalami perubahan kondisi fisik tubuh akibat pertumbuhan ganas sel kanker. Selain itu, pasien kanker sering mengalami perubahan emosional yang disebabkan oleh kecemasan akibat prognosis penyakit ataupun program pengobatan yang dijalani. Teori Henderson berfokus pada individu berdasarkan pandangan, yaitu jasmani (body) dan rohani (mind) yang tidak dapat dipisahkan. Penerapan teori keperawatan yang tepat dalam memberikan asuhan keperawatan pada pasien kanker akan dapat mengoptimalkan derajat Kesehatan pasien kanker tersebut. Semoga dengan adanya buku ini dapat meningkatkan pemahaman mahasiswa dan perawat dalam memberikan asuhan keperawatan pada pasien kanker.

This manual describes all the steps necessary to undertake and complete a thorough medical malpractice investigation. It is a comprehensive, step-by-step guide to the elements involved in the investigation of an actual or potential medical malpractice claim, and covers the process of reviewing medical records, other document collection, fact analysis, interviewing involved individuals, and identifying possible departures from accepted medical practice. The new second edition of Medical Malpractice Claims Investigation: A Step-by-Step Approach features a complete revision of chapter five (Developing Interview Questions), additional material on new JCAHO requirements, electronic medical records, office-based surgery issues, and long-term care claims investigation.
