The name 'Blacktop' is given to the 5th generation of the 4A-GE engines. It's not an official name that Toyota gave to the engine, but something Toyota enthusiast came up with to distinguish this generation of the 4A-GE. The reason for the name is pretty obvious: The valve covers and protectionplate between them are all black.

Readers can relive the true golden age of high-performance classic speedboats in this book that covers these mighty wooden-hulled craft from around World War I until just before the second World War. This was an era when speed was still a new plaything, and speedboats and aircraft were raced as passionately as were automobiles; when massive mahogany speedboats powered by engines from suppliers such as Rolls-Royce competed fiercely against rivals from around the world. Classic speedboat enthusiasts will relish the cutaway drawings of these craft, as well as the choice archival photography and the modern color photography of these now-impeccably restored beauties.

From the late 1940s to the mid-1970s, Richard Nixon was a polarizing figure in American politics, admired for his intelligence, savvy, and strategic skill, and reviled for his shady manner and cutthroat tactics. Conrad Black, whose epic biography of FDR was widely acclaimed as a masterpiece, now separates the good in Nixon|his foreign initiatives, some of his domestic policies, and his firm political hand|from the sinister, in a book likely to generate enormous attention and controversy. Black believes the hounding of Nixon from office was partly political retribution from a lifetime's worth of enemies and Nixon's misplaced loyalty to unworthy subordinates, and not clearly the consequence of crimes in which he participated. Conrad Black's own recent legal travails, though hardly comparable, have undoubtedly given him an unusual insight into the pressures faced by Nixon in his last two years as president and the first few years of his retirement.
