~~Handbook Of Poultry Production And~~

Previously poultry farms had production of only a few hundred birds (200-500 chickens) per cycle. However presently, poultry units with fewer than 5,000 birds are an exception with the majority of the farms breeding more than 500,000 birds. Similar is the case with layer poultry farms.

~~Farm Advisory Service~~

2 The federal Poultry Production Inspection Act (PPIA - USC, Title 21, § 451-470, and CFR, Title 9, Part 381) provides exemptions from federal inspection requirements for two categories of small-scale poultry producers who raise and process their birds on their own farms:

- “Smallest-scale” producers who raise and process <1,000 chickens or <250 turkeys each year;
- “Small-scale” producers who raise and process <20,000 or <5,000 turkeys each year.
