Find the model year code in your model number and determine the year using the key below. Year: Serial ID: 2007 & Later: DK AK: 2006. D6 A6: 2005. D5 A5: 2004. D4 A4: 2003. D3 A3: 2002. D2 ...

### [Honda Outboard Motor Model Year Look-up Guide](#)

The model year of a Honda outboard motor can only be determined by using the serial number through the 2006 model year. Contact a Honda Marine dealer for information on how to determine the model year of Honda outboard motors after the 2006 model year, because Honda stopped using model year designators in the serial number beginning with the 2007 model year.

### [How to Determine the Year of a Honda Outboard Motor by the](#)

The first letter (i.e. the "D" or "A") will be either the third or fourth letter in the serial number sequence. Once you have found the segment that starts with a "D" or "A" you will still have to cross-reference it with the Honda Outboard Model Identification Guide to figure out the year in which the motor was made.

### [How to Find Year on Honda Outboard | It Still Runs](#)

Honda Marine provides information about the year an outboard motor was built through the serial numbers of motors manufactured between 1997 and 2006. To determine if your model was made during or after those years, you can match two letters embedded into the serial number with a corresponding year on a chart. Locate the serial number

### [How Do You Determine the Year of a Honda Outboard Motor by](#)

To find the model number, look for a model number sticker on the engine. All Honda engines model numbers start with the letter "G," such as "G100", "GX610", or "GXV160." This is the base engine model. The engine model and serial number should be adequate for most of your needs.

### [Honda Engines | Engine Type Identification](#)

The frame serial number is found on or near the stern bracket, stamped into a metal plate. The number uses the form "BXXX-XXXXXX" and may also be referred to as the product identification number. If you can't find the model name or frame serial number, contact a Honda Marine dealer for help.

### [Honda Marine | Serial Number Locator](#)

### [Honda Marine - 4-Stroke Outboard Motors, Parts](#)

To use our on-line spare parts search facility, you need to know your Honda outboard model number. Once you know your engine or frame number, please use the table below to find your model number.

### [Honda model number finder - Honda Outboard Bits | Spare](#)

Here you can find Honda outboard parts for your engine arranged by horsepower and by serial number. Once you identify your motor, you can use the exploded Honda outboard parts diagrams. When you click the diagrams, you can identify the parts you need and you can also see how the parts fit together in your engine.

### [Honda Outboard Parts by HP & Serial - OFM Marine Parts](#)

Honda outboard model numbers are set up in the following formats: Find the model year code in your model number and determine the year using the key below. With Yamaha model numbers, the last letter indicates the year. For example, in SX150TLR Y 1 the "Y" tells you the model year is 2000.

### [How To Outboard Engine Serial Number Year Match iBoats](#)

Honda outboard motors have been in production since the 1960s. While a variety of engine types have been produced in this period, the models all share a standard method of identification, in the form of their serial number code. This makes it possible to identify how old a Honda outboard is with the serial number.

### [How to Identify How Old a Honda Outboard is With the](#)

The ID number is stamped on a plate that is affixed beside or directly to the motor's stern bracket. If the plate is missing or you can't locate it you can use the Reference Chart you can see on this page. Once you have the ID number simply select your outboard's year of manufacture on this main Honda parts page, then select the model that corresponds to you outboard's ID number to be taken to the correct Honda marine parts page for that exact outboard model.

### [Honda Outboard Parts - OFM Marine Parts | Boats.net](#)

A 7 digit serial number follows. For example, EAAJ-1234567 or MZCG-1234567. - This database only contains serial numbers for models produced since 2004. If your unit is older than this, please contact your local Honda Power Equipment dealer for assistance.

### [Honda Marine - Parts Look Up - Official Site](#)

The 5hp Honda outboard boat motor design is compact and lightweight, yet still durable. The 8hp Honda outboard delivers more power than comparable classes of outboards. Honda's 9.9hp outboard motors deliver dependable quiet performance. Honda's 15hp outboard is easy to transport, compact and lightweight.
