Inequality Reexamined - Oxford Scholarship

Inequality Reexamined is a 1992 book by the economist Amartya Sen. In the book Sen evaluates the different perspectives of the general notion of inequality, focusing mainly on his well-known capability approach. The author argues that inequality is a central notion to every social theory that has stood on time. For only if this basic feature is satisfied can a social theory which advocates a set of social arrangements be plausible.

Inequality Reexamined | Amartya Sen

Sen begins Inequality Reexamined by arguing that equality plays a key role in all political philosophies of any consequence. Even those that are commonly perceived as anti-egalitarian advocate equality in some "space" — libertarianism advocates equality of libertarian rights, for example, while utilitarianism assigns equal weight to individual utilities.
