Ingersoll Rand's line of TURBO-DRI™ desiccant dryers is the result of our unending pursuit to create the most reliable desiccant dryers you can operate. Our developments have set many new standards and new expectations industry-wide. Advanced Design for Optimum Operation and Superior Reliability Flexible choices for clean, dry air

Desiccant Air Dryers - Ingersoll Rand Products

HL heatless desiccant dryers use twin desiccant towers with strategically positioned valves to dry compressed air. The simple technology of heatless dryers divert a portion of dried compressed air to an off-line tower. The dry air then flows through and regenerates desiccant. Although operating costs run higher than the heated desiccant dryers, the HL series requires the lowest capital investment.

Heatless Desiccant Dryers 2.5-142 m3/min, 800-5,000 cfm

A compressor dryer is an integral piece in your air treatment system, making Ingersoll Rand's wide knowledge and expertise in this field a key aspect to the success of your compressed air system. We offer the widest selection of air compressor dryer systems, air treatment products, and application knowledge to protect your investment and compressed air system.

Air Compressor Dryers - Ingersoll Rand Products

Ingersoll Rand desiccant dryers are designed to virtually eliminate costly production interruptions due to moisture. All of our dryers use twin desiccant towers and strategically positioned valves for drying compressed air.

ingersoll rand desiccant dryers - mb air systems ltd

Perfect for outdoors or low ambient applications! Modular designed desiccant air dryers have been specially designed to provide compressed air pressure dewpoint of -40° F. Ratings are based on 100° F inlet air temperature and 100 PSIG inlet air pressure. Maximum pressure is 150 PSIG. Sub-Categories. 0-75 SCFM.

Desiccant Air Dryers - Ingersoll Rand Authorized Dealer

Modular Heatless Desiccant Dryers 54-299 m3/h, 32-176 cfm. View all models. Our innovative modular desiccant dryers are compact, fully integrated units that install at point-of-use, so you pay for drying only the air required. They deliver ISO Class 2 dew point performance, with optional ISO Class 1 to help prevent corrosion, minimize production disruptions and losses due to moisture or contamination.

Modular Heatless Desiccant Dryers 54-299 m3/h, 32-176 cfm

Heated Blower Desiccant Dryers 4.2-226 m3/min, 150-8,000 cfm. View all models. Heated blower desiccant dryers utilize a high performance centrifugal blower to direct ambient air through a heater and the off-line tower to regenerate desiccant. Although heated blower technology requires the highest initial capital investment, it offers significantly lower operating costs than other desiccant dryer technologies because there is little to no loss of compressed air from the system for regeneration.

Heated Blower Desiccant Dryers 4.2-226 m3/min, 150-8,000 cfm

Ingersoll Rand Air Dryer Troubleshooting On this page you can find lists of possible problems you may have using your dryer. The tables here contain Ingersoll Rand dryer fault codes or problem air compressor descriptions. There are also possible causes of issues related to air temperature, pressure, dryer settings, insufficient rate and so on.

Ingersoll Rand Air dryer troubleshooting: Ingersoll Rand ...

Ingersoll Rand offers a variety of compressed air treatment products that are reliable for your compressed air system, sized correctly depending on your air compressor. From refrigerated compressed air dryer, to desiccant compressed air dryers, to compressed air filters, we have all the air treatment you will need.

Ingersoll Rand Heatless and Heated Blower Desiccant Air Dryers

Ingersoll Rand HB heated blower desiccant dryers are equipped with dedicated durable centrifugal blowers to provide purge air for regeneration, eliminating the need to divert dry compressed air from the air system. Instead, the blower directs ambient air through an external heater and then through the off-line tower to regenerate the desiccant.

Desiccant Air Dryers - Ingersoll Rand Authorized Dealer

INGERSOLL RAND HLA2501H00AA Air Dryer, Desiccant, 250 CFM, 60 HP. MPN: HLA2501H00AA, SKU: G9009323. This item ships direct from the manufacturer and has an extended handling time. Please see the Delivery section above for an estimated date of arrival. Product Details

INGERSOLL RAND HLA2501H00AA Air Dryer, Desiccant, 250 CFM, 60 ...

Perfect for outdoors or low ambient applications, Ingersoll-Rand's modular air dryers make it easier and more affordable than ever to deliver high-quality compressed air. This dryer helps prevent corrosion and minimizes production disruptions or losses due to moisture or contamination.

DA15IM Modular Desiccant Air Dryer

INGERSOLL RAND Regenerative Desiccant Compressed Air Dryers 18 products A regenerative desiccant compressed air dryer from Grainger can help you provide clean, dry air to your air compressor.

INGERSOLL RAND Regenerative Desiccant Compressed Air ...

Perfect for outdoors or low ambient applications, Ingersoll-Rand's innovative modular air dryers make it easier and more affordable than ever to deliver high-quality compressed air. This dryer helps prevent corrosion and minimizes production disruptions or losses due to moisture or contamination. And, because noise levels are so low (<75 dB) and the dryer's remote exhaust feature offers further enhanced noise suppression, the unit can be installed right in the work environment.

D41IM Modular Desiccant Air Dryer

Whether it's lower operating costs or a lower capital investment, Ingersoll Rand has a desiccant dryer that fits your needs. Heatless Desiccant Dryers Drying: (1) From the air compressor, the air enters the dryer through a pre-filter that removes To air system Regeneration tower Drying tower contaminates to protect the desiccant.
