Das Kapital Karl Marx Francis Wheen
Among several Karl Marx books, Francis Wheen at least recognizes the research side and his many years of investigating the relationship between job providers and their workers - which makes him a leading theorist of his times - while others, such as Engels misused Marx' findings for what became a Communist movement....

Karl Marx: A Life: Wheen, Francis: 9780393321579: Amazon ...

Karl Marx, Francis Wheen One hundred years after the death of Karl Marx, more than half of the world's people came under the domination of governments that proclaimed "Marxism" as their model. His ideas transformed the study of economics, history, geography, society and literature, etc.

Karl Marx by Francis Wheen - Goodreads
In this book Francis Wheen, for the first time, presents Marx the man in all his brilliance and frailty - as a poverty-stricken Prussian emigre who became a middle-class English gentleman; as an angry agitator who spent much of his adult life in scholarly silence in the British Museum Reading Room; as a gregarious and convivial host who fell out with almost all his friends; as a devoted family man who impregnated his housemaid; as a deeply earnest philosopher who loved drink, cigars and jokes.

Karl Marx : A Life by Francis Wheen 9780393049237 | eBay

Karl Marx, by Francis Wheen. A witty, lucid portrait of an unexpected Communist.

Carbuncular Karlo Marx - The Common Reader

In that attempt Francis Wheen has been remarkably successful. As a treatment of “Karl Marx the Man,” as opposed to Karl Marx the revolutionary thinker, Wheen’s book certainly deserved to become—as immediately on its first publication in the United Kingdom it did—a bestseller.

Karl Marx, by Francis Wheen (Fourth Estate, 431pp, £8.99) This book created such a stir when it came out that I feel I hardly have to summarize it. Still, here it is: the warts-and-all, lively and...

Guardian review: Karl Marx by Francis Wheen | Books | The ...

Marx and the Working Class Source: "Karl Marx," © Francis Wheen 1999, pp 276-292. Used with permission of the author. According to the legend tirelessly peddled by his critics, Marx was an incorrigible snob who despised working-class socialists, regarding them as dolts and asses who had acquired ideas above their station.

Marx and the Working Class by Francis Wheen

In this book Francis Wheen, for the first time, presents Marx the man in all his brilliance and frailty - as a poverty-stricken Prussian emigre who became a middle-class English gentleman; as an angry agitator who spent much of his adult life in scholarly silence in the British Museum Reading Room; as a gregarious and convivial host who fell out with almost all his friends; as a devoted family man who impregnated his housemaid; as a deeply earnest philosopher who loved drink, cigars and jokes.

Karl Marx: Amazon.co.uk: Wheen, Francis: 9781841151144: Books

Wheen is the author of several books, including a biography of Karl Marx which won the Deutscher Memorial Prize in 1999, and has been translated into twenty languages. He followed this with a notional "biography" of Das Kapital , which follows the creation and publication of the first volume of Marx's major work as well as other incomplete volumes.

Francis Wheen - Wikipedia

He is the author of several books including a biography of Karl Marx, which won the Isaac Deutscher prize. A column for The Guardian ran for several years. Francis James Baird Wheen (born 22 January 1957) is a British journalist, writer and broadcaster.

Francis Wheen (Author of Karl Marx) - Goodreads

Right now, columnist, game-show pundit and biographer of Tom Driberg, Francis Wheen is here to tell us that all the previous practitioners and theoreticians of Marx’s work – both the governments and the academics (in economics, history, geography, sociology, literature) who professed themselves Marxists – have ‘calamitously misinterpreted’ his thought.

Jenny Diski · A Human Being: Karl Marx · LRB 25 November 1999

In this stunning book, the first comprehensive biography of Marx since the end of the Cold War, Francis Wheen gives us not a socialist ogre but a fascinating, ultimately humane man, while still examining the criticisms of his detractors.

Karl Marx: A Life by Francis Wheen, Paperback | Barnes ...

Wheen makes a number of useful revisions to the historical record; whereas many biographers paint Marx's relationship with the Russian anarchist Mikhail Bakunin as a bitter and hateful rivalry, Wheen documents that the two were friendly in person and borrowed liberally from one another's store of ideas.

KARL MARX | Kirkus Reviews

Francis Wheen, biographer of Karl Marx, argues that as long as capitalism endures, Marx's masterpiece, Das Kapital, will be required reading. First published in 1867, Marx's influential critique of...

This biography presents Karl Marx as a man of both brilliance and frailty, as a poverty-stricken Prussian emigre who became a middle-class English gentleman, as an angry agitator, as a gregarious and convivial host and as a devoted family man.

Looks at the life of the father of Communism focusing primarily on the human side of the man rather than his works

A major biography of the man who, more than any other, made the twentieth century. Written by an author of great repute.

A critical study of Karl Marx's landmark work, Das Kapital, details the author's two-decade struggle to complete his work and its seminal influence on philosophers, writers, revolutionaries, and others, as well as its impact on the course of twentieth-century history. Reprint.

In 1979 two events occurred that would shape the next twenty-five years. In America and Britain, an era of weary consensus was displaced by the arrival of a political marriage of fiery idealists: Ronald Reagan and Margaret Thatcher transformed politics with a combination of breezy charm and assertive "Victorian values." In Iran, the fundamentalist cleric Ayatollah Ruhollah Khomeini set out to restore a regime that had last existed almost 1,300 years ago. Between them they succeeded in bringing the twentieth century to a premature close. By 1989, Francis Fukuyama was declaring that we had now reached the End of History. What colonized the space recently vacated by notions of history, progress and reason? Cults, quackery, gurus, irrational panics, moral confusion and an epidemic of idiocy, the proof of which was to be found in every state, every work-place, and every library. In Idiot Proof, columnist Francis Wheen brilliantly evokes the key personalities of the post-political era—including Princess Diana and Deepak Chopra, Osama bin Laden and Nancy Reagan's astrologer—while lamenting the extraordinary rise in superstition, relativism and emotional hysteria over the past quarter of a century. In turn comic, indignant, outraged and just plain baffled by the idiocy of it all, Idiot Proof is a masterful depiction of the daftness of our times and a plea that we might just think a little more and believe a little less.

Gareth Stedman Jones returns Karl Marx to his nineteenth-century world, before later inventions transformed him into Communism's patriarch and fierce lawgiver. He shows how Marx adapted the philosophies of Kant, Hegel, Feuerbach, and others into ideas that would have—in ways inconceivable to Marx—an overwhelming impact in the twentieth century.

Citing a lifelong engagement with Marxism, critic and writer Marshall Berman reveals the movement's positive points and suggests a new beginning for Marxism may be on the horizon with its recent 150th anniversary attention.

'All too often, Karl Marx has been regarded as a demon or a deity - or a busted flush. This fresh, provocative, and hugely enjoyable book explains why, for all his shortcomings, his critique of modern society remains forcefully relevant even in the twenty-first century.' Francis Wheen, author of Karl Marx In recent years we could be forgiven for assuming that Marx has nothing left to say to us. Marxist regimes have failed miserably, and with them, it seemed, all reason to take Marx seriously. The fall of the Berlin Wall had enormous symbolic resonance: it was taken to be the fall of Marx as well as of Marxist politics and economics. This timely book argues that we can detach Marx the critic of current society from Marx the prophet of future society, and that he remains the most impressive critic we have of liberal, capitalist, bourgeois society. It also shows that the value of the 'great thinkers' does not depend on their views being true, but on other features such as their originality, insight, and systematic vision. On this account too Marx still richly deserves to be read.

Presents a collection of articles documenting Marx's views of such topics as social inequality, the slave and opium trades, and the British rule in India.

The globalised world of the twenty-first century has many parallels with that of the period running up to the cataclysm of 1914, namely the world predicted by Karl Marx. Communications go that much faster, but this is a difference of degree, not type. People, messages, and ideas are flung around the globe. Money circulates in a never-ceasing torrent, poverty lives side by side with wealth, and capital exercises its impersonal power over each and every one of us. In this world, Karl Marx blunt and straightforward enough to inspire criticism of the latest exploits of capitalism, the failings of politics, and the genuflection of those in power before fetishes like The Market lives on. Despite nearly 200 years having passed since his birth, his burning condemnation of capitalism remains of immediate interest today. The texts he left behind gave rise to what would come to be called Marxism, but that was a term he rejected. His approach enormous amounts of reading and writing, integrating new discoveries from the various sciences into his analyses of society was a far cry from how his theories would come to be used in states where only one, party-approved interpretation was allowed. Now, more than ever before, these texts can be read for what they truly are. In addition to providing a living picture of Marx the man, his life, and his family and friends as well as his lifelong collaboration with Friedrich Engels Sweden 's leading intellectual historian Sven-Eric Liedman, in this major new biography, shows what Karl Marx the thinker and researcher really wrote, demonstrating that this giant of the nineteenth century can still exert a powerful attraction for the inhabitants of the twenty-first.
