Here you'll find 122 different layouts with information on when and how to use them. Start with personal day and year cards, and learn how to relate Tarot to your own interests, in order to find specific blind spots and personal resistances, as well as how to look for new chances and unexpected directions. Then you progress to the larger and theme cards, and learn to interpret networks of cards and also "to view every card as a world by itself." You'll become acquainted with the Cycle of the Year (with 20 major layouts) and with the practice of Tarot and astrology, using the respected Golden Dawn System developed by Arthur A. Waite and Alistair Crowley. Soon you'll appreciate the variety and creativity inherent in Tarot, to see the cards as a mirror of yourself, and to discover what the authors mean when they say that "being lucky has nothing to do with luck." 192 pages, 114 b/w illus., 6 x 9.

In Focus Tarot provides the essentials to quickly get you started practicing tarot card reading. Tarot cards and readings have been used since the eighteenth century as a divination tool in seeking answers to past, present, and future events, in addition to guidance and support. Their popularity continues to this day. But how do you start? With In Focus Tarot, author Steven Bright breaks down the essentials to get you started right away. Bright first thoroughly explains each of the major and minor arcana, then presents both traditional and newer tarot card placements (called tarot spreads). He also provides professional tips and tricks to becoming a successful tarot reader. Also included in this edition is a handy wall chart that details each of the 78 tarot cards and their characteristics and associations, as an additional learning tool. The In Focus series applies a modern approach to teaching the classic body, mind, and spirit subjects, using expert authors in their respective fields and featuring relevant visual material to smartly and purposely illustrate key topics within each subject. As a bonus, each book is packaged with index cards and/or a poster, to give readers a quick, go-to reference guide containing the most important information on the subject, for easy practice and retention.

This extraordinary account of a remarkable journey made in 1933, through Iraq, Iran and Baluchistan (now part of Pakistan) to India is packed full of wonder, adventure, determination and love of travel and motorcycles. But what really sets this book apart are the wonderful descriptions of the people and cultures, now nearly forgotten, yet still hugely relevant in today's age: all brought evocatively to life by the stunning photos from 1933.
