I am trying to download the 1951 Matchless g80 manual but it doesn't seem to work. I tried the AJS one for the same year with no issues but unfortunately the magneto configuration for the AJS is different and I specifically need the valve timing info which is different between the two. Is there any way of emailing this info for me. Chris Berry 61407011278. Reply: Rob Rowlan 24th November ...

The Matchless spare parts manual lists the 1935 cover as FE 432/L. 1935 – 1951 Matchless. 1935 saw the introduction of the rear mounted magneto on many Matchless singles that lasted right through until the end of the 1951 models. In 1935 the 35-G3-E32 cover was only used on the G3 Clubman model. In 1936 this cover was fitted for all magneto ignition models. This cover had an " A " added to ...

AJS Matchless Parts and Year Guide - Jampot

THE 500cc AJS MODEL18, aka the Matchless G80, is arguably the quintessential English post-war heavyweight single. Solid, handsome, competent, economical and reliable, you might be forgiven for feeling the urge to wear a bowler hat and a bow tie when riding one of these about town, or even further afield. Because they'll take you pretty much anywhere you want to go without too much fuss and drama.

Matchless Motorcycle Service & Repair Manuals for sale | eBay

The Matchless G80 is a single cylinder 500 cc British motorcycle built by Associated Motorcycles (AMC) between 1946 and 1966.

186 pages, and more than 150 illustrations and charts, size 8.25 x 10.75 inches. This manual is a compilation of three original factory publications. The first is a reproduction of the 108 page 'Workshop Instruction Manual' for the 1957-64 Lightweight and Heavyweight singles and the twin cylinder models. The second is a reproduction of the 12 page 'Supplementary Instruction Book for Competition Models'. The third is a 60 page 'Instruction Book' combination that is exclusive to the 1958-1966 G2, G5, 14 and 8 Lightweight 250cc and 350cc singles. While the reprint of the original 108 page AMC workshop manual states that it is appropriate for the 1957-1964 models, it actually covers the entire line of AJS and Matchless 250cc to 650cc Lightweight and Heavyweight singles and 500cc to 650cc twins manufactured by AMC through 1966 (see below). Please note that it does not include the 750cc AMC G15/45 (1962-63) or the later Norton/AJS/ Matchless G15 hybrids. Owners of these 750cc hybrids are directed to the 'Norton 1966-70 Lightweight & Heavyweight Twins' workshop manual, ISBN 9781588502421 as it includes significant maintenance and repair information on those models. While the single cylinder machines are always considered the backbone of AMC's post-war production, in 1948 they introduced a 500cc twin cylinder, the AJS model 20 and Matchless G9. However, it was 1957 before that singular model was joined by a number of additional 500cc, 600cc and 650cc twins. In 1958 they also added two 'lightweight' singles to their well respected line of 'heavyweight' singles. Unfortunately, by the mid 1960's, along with most British motorcycle manufacturers, AMC was struggling to compete with the flood of Japanese imports and by 1966, the AMC conglomerate had collapsed. While the reason is mired in mergers, finances, consolidation, politics and worker unrest, both the AJS and Matchless name continued onward, under license, until early 1970, at which point both marques were history. 1957-1966 Lightweight and Heavyweight Singles and Twins covered in this manual are as follows: AJS. Models AJS 250cc Lightweight Singles: 14, 14CS, 14S, 14CSR AJS 350cc Lightweight Singles: 8 AJS 350cc Heavyweight Singles: 16MS, 16, 16C, 16MC, 16MCS, 16S AJS 500cc Heavyweight Singles: 18S, 18, 18CS AJS 500cc Twins: 20, 20CS, 20CSR (Also covers the earlier AJS 20 from 1948 onwards) AJS 600cc Twins: 30, 30CS (Also covers the 1955/56 AJS 30) AJS 650cc Twins: 31, 31CS, 31CSR, 650 Twin Matchless Models Matchless 250cc: Lightweight Singles: G2, G2CS, G2S, G2CSR Matchless 350cc: Lightweight Singles: G5 Matchless 350cc: Heavyweight Singles: G3LS, G3, G3C, G3LCS, G3S Matchless 500cc: Heavyweight Singles: G80S, G80, G80CS Matchless 600cc: Heavyweight Single: TCS Matchless 500cc Twins: G9, G9CS, G9CSR (Also covers the earlier Matchless G9 from 1948 onwards) Matchless 600cc Twins: G11, G11CS (Also covers the 1955/56 Matchless G11) Matchless 650cc Twins: G12, G12CS, G12CSR, 650 Twin Owners of the AJS Heavyweight singles may also find the following two publications useful: ISBN 9781588501240 'Book of the 1945-60' models and ISBN 9781588501677 'Book of the 1955-65' models. Similarly, owners of the Matchless Heavyweight singles are referred to ISBN 9781588502087 'Book of the 1945-1956' models and ISBN 9781588502056 'Book of the 1955-66 models.

200 pages, 60 illustrations, size 5.5 x 8.5 inches. A faithful reproduction of the Floyd Clymer publication of the third edition (1952) of the C.W. Waller Workshop Manual for all models of Ariel motorcycles built between 1933 and 1951. Includes complete technical data, service and maintenance information and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components, making it an invaluable resource for collectors and restorers of these classic motorcycles. There are separate sections that deal with the repair and overhaul procedures for the engine, transmission, wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is a - must have - reference for any Ariel enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior purchasing of one of these classic motorcycles. Applicable To The Following Models: Four cylinder: 4/F/600cc OHC, 4/F/600cc OHV, 4/G/1,000cc OHV (Cast Iron & Light Alloy). Twin cylinder: 500cc OHV models KG & KH. Single cylinder: 600cc SV model VB. 500cc OHV models VG & VH. 350cc OHV models NH & NG. 250cc OHV models OH, OG, LG & LH. Much of the data is also applicable to later models that utilize these same engines. Out-of-print and unavailable for many years, this book is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this reproduction as a service to all Ariel enthusiasts worldwide.
