Dr. Rhonda Sutton's second edition of the straightforward guide to progress notes includes additional examples, information, documentation, and clinical language that expands on the utility and readability of the first book. Additional case studies provide examples of how to use the STEPs to format notes. New chapters include information on clinical language and documentation. This book covers everything about progress notes, from how to write them, to how to store them, and even what to do when someone requests to them. In addition, clinical terms and abbreviations are included as well as suggestions for other clinical documentation such as termination letters, privacy statements, and professional disclosure statements. Suited for all types of mental health clinicians, this book will help therapists improve upon their progress notes and other forms of clinical documentation.

All the forms, handouts, and records mental health professionals need to meet documentation requirements—fully revised and updated The paperwork required when providing mental health services continues to mount. Keeping records for managed care reimbursement, accreditation agencies, protection in the event of lawsuits, and to help streamline patient care in solo and group practices, inpatient facilities, and hospitals has become increasingly important. Now fully updated and revised, the Fourth Edition of The Clinical Documentation Sourcebook provides you with a full range of forms, checklists, and clinical records essential for effectively and efficiently managing and protecting your practice. The Fourth Edition offers: Seventy-two ready-to-copy forms appropriate for use with a broad range of clients including children, couples, and families Updated coverage for HIPAA compliance, reflecting the latest The Joint Commission (TJC) and CARF regulations A new chapter covering the most current format on screening information for referral sources Increased coverage of clinical outcomes to support the latest advancements in evidence-based treatment A CD-ROM with all the ready-to-copy forms in Microsoft® Word format, allowing for customization to suit a variety of practices From intake to diagnosis and treatment through discharge and outcome assessment, The Clinical Documentation Sourcebook, Fourth Edition offers sample forms for every stage of the treatment process. Greatly expanded from the Third Edition, the book now includes twenty-six fully completed forms illustrating the proper way to fill them out. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Everything you need to know to record client intake, treatment, and progress—incorporating the latest managed care, accrediting agency, and government regulations Paperwork and record keeping are day-to-day realities in your mental health practice. Records must be kept for managed care reimbursement; for accreditation agencies; for protection in the event of lawsuits; to meet federal HIPAA regulations; and to help streamline patient care in larger group practices, inpatient facilities, and hospitals. The standard professionals and students have turned to for quick and easy, yet comprehensive, guidance to writing a wide range of mental health documents, the Third Edition of The Psychotherapy Documentation Primer continues to reflect HIPAA and accreditation agency requirements as well as offer an abundance of examples. The new edition features: Revised examples of a wider range of psychological concerns New chapters on documentation ethics and the art and science of psychological assessment and psychotherapy Study questions and answers at the end of each chapter Greatly expanded, The Psychotherapy Documentation Primer, Third Edition continues to be the benchmark record-keeping reference for working professionals, reflecting the latest in documentation and reporting requirements.

This book is a comprehensive textbook for occupational therapy students and occupational therapists working in the field of mental health. It presents different theories and approaches, outlines the occupational therapy process, discusses the context of practice and describes a wide range of techniques used by occupational therapists. These include physical activity, cognitive approaches, group work, creative activities, play and life skills. The book covers all areas of practice in the field, including mental health promotion, acute psychiatry, community work, severe and enduring mental illness, working with older people, child and adolescent mental health, forensic occupational therapy, substance misuse and working with people on the margins of society. The theory chapters are written by occupational therapists who are recognised experts in their fields and the applied chapters are written by practitioners. An innovation in this edition is the inclusion of commentaries by service users on some of the chapters. This fourth edition has been extensively revised and updated. The new structure reflects changes in service delivery and includes sections on: philosophy and theory base the occupational therapy process ensuring quality the context of occupational therapy occupations client groups. Important new areas that are covered include mental health promotion, evidence-based practice, community development and continuing professional development. Addresses the needs of the undergraduate course - covers all the student needs for this subject area in one volume. Links between theory and practice are reinforced throughout Written by a team of experienced OT teachers and practitioners Comprehensive - covers theory, skills and applications as well as management The clear structure with the division of chapters into six distinct sections makes it easy to learn and revise from as well as easy to refer to for quick reference in the clinical situation. Provides key reading and reference lists to encourage and facilitate more in-depth study on any aspect. It is written in a style that is easy to read and understand; yet there is enough depth to take students through to their final year of education. Chapters on the application of occupational therapy are written by practising clinicians, so they are up-to-date and realistic. For qualified occupational therapists, the book includes a review of current theories and approaches to practice, with references so that they can follow up topics of particular interest. Suitable for BSc and BSc (Hons) occupational therapy courses.

This book provides step-by-step guidelines, tips, and instruction on how to create and write psychotherapy treatment notes. Information and guidance are provided on how to write a treatment intake report, treatment progress notes, and termination summary. A number of sample notes, reports and templates are provided. The book also includes hundreds of representative statements for therapists to use in the design of their own psychotherapy progress notes. A valuable resource for experienced mental health professionals and trainees alike, from the creator of Note Designer therapy note-writing software. "“A time-saving reference to capture the essence and the methods of professional note writing for psychotherapists. Easy to apply and great to keep close-by when writing reports and progress notes.” --Alexandre Smith-Peter, Psy.D. candidate

Provides documentation procedures designed to meet or exceed standards by accreding agencies, 3rd party payors, and HIPAA compliance Covers training and examples of empirical evidence of client progress from the intake to termination Revised to cover DSM-5 revisions Includes training in documenting treatment outcomes Everything you need to know to record client intake, treatment, and progress—incorporating the latest managed care, accrediting agency, and government regulations Paperwork and record keeping are day-to-day realities in your mental health practice. Records must be kept for managed care reimbursement; for accreditation agencies; for protection in the event of lawsuits; to meet federal HIPAA regulations; and to help streamline patient care in larger group practices, inpatient facilities, and hospitals. The standard professionals and students have turned to for quick and easy, yet comprehensive, guidance to writing a wide range of mental health documents, the Fourth Edition of The Psychotherapy Documentation Primer continues to reflect HIPAA and accreditation agency requirements as well as offer an abundance of examples. Fully updated to include diagnostic criteria of the DSM-5, The Psychotherapy Documentation Primer, 4th Edition is designed to teach documental skills for the course of psychotherapy from the initial interview to the discharge. The documentation principles discussed in the text satisfy the often-rigid requirements of third-party insurance companies, regulating agencies, mental health licensing boards, and federal HIPAA regulations. More importantly, it provides students and professionals with the empirical and succinct documentation techniques and skills that will allow them to provide clear evidence of the effects of mental health treatment while also reducing the amount of their time spent on paperwork.

This concise volume examines exactly what is involved in keeping adequate clinical records of individual, family, couple and group psychotherapy. The authors discuss: limits of confidentiality; retention and disposing of records; documentation of safety issues; client access to records; treatment of minors; and training and supervision issues. Throughout the book, legal cases, vignettes and professional commentary help readers to consider legal and ethical issues.

A blueprint for doing clinical work in field experience. Field Experience: Transitioning from Student to Professional aids students in developing their professional identity on their journey toward becoming a counselor. Authors Najjian Zhang and Richard D. Parsons help students integrate the knowledge they learn across the curriculum by presenting a roadmap of how to start, navigate, and finish a practicum or internship. Throughout the book, coverage of CACREP standards, case illustrations, exercises, and real-life examples create an accessible overview of the entire transitioning process. Field Experience is part of the SAGE Counseling and Professional Identity Series, which targets specific competencies identified by CACREP (Council for Accreditation of Counseling and Related Programs).
