New to the forum and new to mercury. I have a 1994 xri 200 that intermittently boggs down when taking off out of hole. Mercury installed a new mechanical fuel pump and electrical fuel pump and change filter. It has ran great for 2 trips to lake. Now it has started again.

Mercury XRI, it's a 2-stroke fuel injected/oil injected motor. The motor comes with the controls. This motor runs great. Motor has very few hours on it. I purchased it from father-in law who took great care of it but rarely used it. I have used it 10-12 times each summer since I bought it about 5 years ago.
