Your child doesn ' t have to be involved in sports to risk injury at school. Lugging backpacks full of books (which can weigh more than 25 pounds), " tech neck," which refers to posture that comes from constantly looking down at electronic devices, and the hunched-over position many students adopt can all cause issues, says master trainer Mark A. Nutting, CSCS.

With the kind support of the Calouste Gulbenkian Foundation and the University of Essex we ' ve established a clear definition of connection to nature and a method for measuring it. For the first time, this research - reported in Connecting with Nature, available to download - reveals how connected to nature children are across the UK. The national results show that currently only 21 per cent of 8–12 year olds have a connection to nature level that we consider a realistic and achievable ...
