The Expert Source Just Got An Upgrade . Learn more about NFPA LiNK™, your custom, on-demand code knowledge tool brought to you by NFPA. Currently, NFPA LiNK™ includes the four most recent versions of the National Electrical Code® (NEC®), NFPA 70E® (2021), and NFPA 101® (2021).

The purpose of this handbook, in addition to providing commentary on the requirements of NFPA 20 and NFPA 14, is to include in one document a complete handbook of all NFPA documents that establish water supply requirements for fixed suppression systems, regardless of the type of water supply. An overview of pump configurations provides examples of possible fire pump configuration based on the requirements of NFPA 20 and discusses the purpose of its components.
