Project PERFORMANCE IMPROVEMENT
(PI) is a methodology for improving
the quality of institutional and
individual performance. PI, a term
often used interchangeably with
Human Performance Technology
(HPT), has attracted much attention
lately in the international
development community, due largely
to the enthusiasm of the USAID Office
of Population, which is encouraging
Cooperating Agencies (CAs) to adopt
PI.

~~Quality & Performance Improvement~~

By improving both performance and quality, public health systems save lives, cut costs and get better results. Performance Management (PM) is a systematic process aimed at helping achieve an organization ' s mission and strategic goals by improving effectiveness, empowering employees, and streamlining the decision-making process. Quality Improvement (QI) focuses on the process to help bring services to the next level with the aim to improve the overall health of a community.

Therefore, it needs to be improved every time to cater for the needs of the citizens. Health improvement needs to be approached from the performance improvement perspective.

~~Introduction to Performance Improvement in Healthcare ...~~

While continuous improvement is related to quality control, it is important to realize continuous improvement has its own scope and application. While the idea of continually improving may seem bluntly obvious, without a definition and concrete application of the principle in your workplace, you will find that it doesn't occur as naturally as one might assume.

control) and safety (risk management) under a departmental umbrella (quality assurance) that serves as a cog in the larger institutional culture of safety (total quality management).

~~Strategies for Establishing a Comprehensive Quality and ...~~

There is no single definition of quality improvement. However, a number of definitions describe it as a systematic approach that uses specific techniques to improve quality. One important ingredient in successful and sustained improvement is the way in which the change is introduced and implemented. Taking a consistent approach is key.
