The manual transmission remote start is also available in a car alarm remote start combo package. The manual transmission remote start is set up to prevent unwanted or accidental starting with the transmission in gear. It is a fail safe system.

Can you put a remote start in a manual transmission?

If you have a manual transmission the turbo timer is activated every time because the remote start needs to see the emergency brake to go into reservation mode. For example, if you don't want the turbo timer to run after getting out of your car you would simply tap the lock button 3 times after exiting your vehicle and shutting the last door. This will cancel your turbo timer function.
