Colonialism as a Project of Representation This is a rich and rewarding book that speaks to a host of
significant issues in China's historical, cultural, and political geography. Emma Jinhua Teng sets out
to demonstrate the role that textual and visual representations of Taiwan played in the transformation
of the Qing empire's imagined geography.

Taiwan's Imagined Geography: Chinese Colonial Travel Writing and Pictures, 1683-1895. Until 300 years
ago, the Chinese considered Taiwan a "land beyond the seas," a "ball of mud" inhabited by "naked and
tattooed savages." The incorporation of this island into the Qing empire in the seventeenth century and
its evolution into a province by the late nineteenth century involved not only a reconsideration of
imperial geography but also a reconceptualization of the Chinese domain.

This policy legalized the entry of Han Chinese settlers into the last of the remaining indigenous
territory on the island. In order to accomplish this appropriation of lands, the Qing employed the
military to "pacify the savages." Taiwan's Imagined Geography excels at showing history in all its messy
complexity and dynamism. We come away from it with a more nuanced understanding of the Qing period, of
how events were sometimes happenstance, how widely perceptions varied, and that ...

The author argues that travelers' accounts and pictures of frontiers such as Taiwan led to a change in the imagined geography of the empire. In representing distant lands and ethnically diverse peoples of the frontiers to audiences in China proper, these works transformed places once considered non-Chinese into familiar parts of the empire and thereby helped to naturalize Qing expansionism.
