The Royal Marsden Hospital (RM) is a specialist cancer treatment hospital in London based in Kensington and Chelsea, next to the Royal Brompton Hospital, in Fulham Road with a second site in Belmont, close to Sutton Hospital, High Down and Downview Prisons. It is managed by the Royal Marsden NHS Foundation Trust.

### *Royal Marsden Hospital - Wikipedia*

Contains revised procedures following 'hands-on' testing by staff and students. The manual was first published in 1984 thanks to the innovative thinking of The Royal Marsden's then Chief Nurse, Robert Tiffany, who prompted the creation of the manual so the hospital's nurses had the information they needed in one place.

Clinical skills procedures are a fundamental aspect of patient-centred nursing care. The Royal Marsden Hospital Manual of Clinical Nursing Procedures, Professional Edition provides up-to-date, evidence-based clinical skills procedures related to every aspect of a person's care. Procedure guidelines are based on an appraisal of the latest research findings and advice from clinical experts, to enable students and qualified nurses to provide the best possible care. The manual provides the underlying theory and evidence for procedures enabling nurses to gain the confidence they need to become fully informed, skilled practitioners. The Eighth edition is organised in four sections which reflect the patient experience: Managing the patient journey, Supporting the patient with human functioning, Supporting the patient through the diagnostic process, Supporting the patient through treatment. It includes additional headings to make the text even more accessible and extra colour photos and diagrams. Nationally recognised as the essential guide to clinical nursing skills. Includes step-by-step procedures related to essential aspects of a patient's care. Provides all the knowledge nurses need to be fully informed and practice accountably. Enables nurses to deliver clinically effective, patient-focused care. Clear, user friendly and easy to understand. All procedures include the rationale for each action. Evidence graded to help nurses assess its validity. Online edition [www.rmmonline.co.uk](http://www.rmmonline.co.uk) also available.

The Royal Marsden is the world's first hospital dedicated to cancer diagnosis, treatment, research and education – a centre of excellence with an international reputation for ground-breaking research and pioneering the very latest in cancer treatments and technologies, as well as specialising in cancer diagnosis and education. This companion volume to the internationally successful The Royal Marsden Manual of Clinical Nursing Procedures is designed to support practitioners who work specifically with oncology patients by providing detailed evidence-based procedures and rationale, and problem-solving guidance on all aspects of oncology nursing. The Royal Marsden Manual of Cancer Nursing Procedures: Is organized and structured to represent the needs of the patient along their care pathway. Provides the latest evidence underpinning all procedures. Includes information on haematological procedures; pain assessment and management; wound care; oncological emergencies; and end-of-life care. Gives detailed guidelines on supporting patients living with cancer with practical information on such things as benefits, exercise and nutrition. The Royal Marsden Manual of Cancer Nursing Procedures is an invaluable, definitive resource for all those involved in the provision of cancer care and support to patients and their families.

Now in its tenth edition, The Royal Marsden Manual of Clinical Nursing Procedures has been the definitive, market-leading guide to clinical nursing skills for over three decades. This internationally best-selling title sets the gold standard for nursing care; providing the procedures, rationale, and guidance required by qualified nurses to deliver clinically effective, patient-focused care with expertise and confidence. With over two-hundred detailed procedures, this comprehensive manual presents the evidence and underlying theory alongside full-colour illustrations and photographs, and includes coverage of infection prevention and control, perioperative care, wound management, nutrition, diagnostic testing, discharge, medicines management, and much more. Loved and trusted by millions for over thirty years, The Royal Marsden Manual of Clinical Nursing Procedures continues to be a truly indispensable guide for nursing practice. Written by nurses for nurses. Empowers nurses to become informed, skilled practitioners. Reflects current procedures and changes in modern adult nursing practice. All procedures are supported by up to date evidence, including detailed rationales for each step of each procedure. Considers the clinical governance around the procedures and nursing practice. **NEW to the Tenth Edition:** Each chapter is linked to the NMC 2018 'Future Nurse: Standards of Proficiency for Registered Nurses' guidance. Includes a brand-new chapter on 'Self Care and Wellbeing,' helping nurses to care for themselves emotionally and physically. The Royal Marsden Manual is also available online, fully searchable, and annotatable. [www.rmmonline.co.uk](http://www.rmmonline.co.uk)

The Royal Marsden Hospital Manual of Clinical Nursing Procedures is classic textbook for nurses at all stages of their careers. It acts as an excellent resource on quality care, and provides the latest evidence-based procedures for patient-focused nursing practice. The fifth edition continues the high standards set by the first four editions and builds upon previous work. Clinical procedures are placed within a holistic framework that is crucial to high quality patient care. New chapters and procedures have been included and others have been expanded to encompass the continuing developments in nursing practice. New chapters include Spinal Cord Compression, Gene Therapy, and Haematological Procedures. The diverse range of clinical procedures from previous editions have also been extensively revised to include the most up-to-date reference material. Within each procedure the guidelines detail the recommended course of action at each stage, including the rationale for undertaking specific activities. Nursing care plans also identify and demonstrate potential problems, causes and solutions. Key features: \*Evidence-based procedures \*Designed for novice and expert nurses \*Supports the aspects of care that are fundamental to Clinical Governance \*Contains alphabetical Quick Reference for guidelines \*Clear illustrations \*All procedures are accompanied by reference material and detailed guidelines \*Nursing plans are included in many chapters. The fifth edition of the Manual is also available on CD for intranet installation. It is available on a site license basis and not for individual purchase. For more details contact Blackwell Science at tel. 01865 206126.

The Royal Marsden Manual of Clinical Nursing Procedures has been the number one choice for nurses since it first published, over 30 years ago. One of the world's most popular books on clinical skills and procedures, it provides detailed procedure guidelines based on the latest research findings and expert clinical advice, enabling nurses and students to deliver clinically effective patient-focused care. The ninth edition of this essential, definitive guide, written especially for pre-registration nursing students, now includes a range of new learning features throughout each chapter that have been designed to support student nurses to support learning in clinical practice. Providing essential information on over 200 procedures, this manual contains all the skills and changes in practice that reflect modern acute nursing care.

This manual is aimed at all healthcare practitioners, from novice to expert, who care for the critically ill patient, recognising that different disciplines contribute to the provision of effective care and that essential knowledge and skills are shared by all practitioners. It provides evidence-based guidelines on core critical care procedures and includes a comprehensive competency framework and specific competencies to enable practitioners to assess their abilities and expertise. Each chapter provides a comprehensive overview, beginning with basic principles and progressing to more complex ideas, to support practitioners to develop their knowledge, skills and competencies in critical care.

This comprehensive clinical practice manual emphasises evidence-based best practice, focusing on interdisciplinary care of the child in hospital and community settings. The additional needs of neonates and adolescents are highlighted.
