Undaunted Courage brought alive many details about the Lewis and Clark "Corps of Discovery". I gained a better understanding of the political mind of Jefferson and political thought of the time; specifically from the colonists' perspective but with plenty of opportunity to see things from the natives' perspective.

Undaunted Courage eBook by Stephen E. Ambrose ...

Undaunted Courage is the story of a heroic and legendary man, and the saga of a great nation creating itself. In 1803, President Thomas Jefferson chose Captain Meriwether Lewis to lead the first government-backed exploration of the vast and unknown western territory of what would become part of the United States. Lewis was the perfect choice.

'This was much more than a bunch of guys out on an exploring and collecting expedition. This was a military expedition into hostile territory'. In 1803 President Thomas Jefferson selected his personal secretary, Captain Meriwether Lewis, to lead a pioneering voyage across the Great Plains and into the Rockies. It was completely uncharted territory; a wild, vast land ruled by the Indians.

Charismatic and brave, Lewis was the perfect choice and he experienced the savage North American continent before any other white man.

UNDAUNTED COURAGE is the tale of a hero, but it is also a tragedy. Lewis may have received a hero's welcome on his return to Washington in 1806, but his discoveries did not match the president's fantasies of sweeping, fertile plains ripe for the taking. Feeling the expedition had been a failure, Lewis took to drink and piled up debts. Full of colourful characters - Jefferson, the president obsessed with conquering the west; William Clark, the rugged frontiersman; Sacagawea, the Indian girl who accompanied the expedition; Drouillard, the French-Indian hunter - this is one of the great adventure stories of all time and it shot to the top of the US bestseller charts. Drama, suspense, danger and diplomacy combine with romance and personal tragedy making UNDAUNTED COURAGE an outstanding work of scholarship and a thrilling adventure.

mountains, down the Columbia River to the Pacific Ocean, and back. Lewis and his partner, Captain William Clark, made the first map of the trans-Mississippi West, provided invaluable scientific data on the flora and fauna of the Louisiana Purchase territory, and established the American claim to Oregon, Washington, and Idaho. Ambrose has pieced together previously unknown information about weather, terrain, and medical knowledge at the time to provide a vivid backdrop for the expedition. Lewis is supported by a rich variety of colorful characters, first of all Jefferson himself, whose interest in exploring and acquiring the American West went back thirty years. Next comes Clark, a rugged frontiersman whose love for Lewis matched Jefferson's. There are numerous Indian chiefs, and Sacagawea, the Indian girl who accompanied the expedition, along with the French-Indian hunter Drouillard, the great naturalists of Philadelphia, the French and Spanish fur traders of St. Louis, John Quincy Adams, and many more leading political, scientific, and military figures of the turn of the century. High adventure, high politics, suspense, drama, and diplomacy combine with high romance and personal tragedy to make this outstanding work of scholarship as readable as a novel.

Chronicles the life of Navy SEAL Team Six operator Adam Brown, a man whose heroism and devotion still stand as a beacon to his friends and family, even after his death in the Afghan Hindu Kush mountains in 2010.

An account of the resourcefulness and courage of Lewis and Clark on their journey through the wilderness from St. Louis to the Pacific. Written from original records and diaries of the expedition.

In this account of an unprecedented feat of engineering, vision, and courage, Stephen E. Ambrose offers a historical successor to his universally acclaimed *Undaunted Courage*, which recounted the explorations of the West by Lewis and Clark. *Nothing Like It in the World* is the story of the men who built the transcontinental railroad -- the investors who risked their businesses and money; the

enlightened politicians who understood its importance; the engineers and surveyors who risked, and lost, their lives; and the Irish and Chinese immigrants, the defeated Confederate soldiers, and the other laborers who did the backbreaking and dangerous work on the tracks. The Union had won the Civil War and slavery had been abolished, but Abraham Lincoln, who was an early and constant champion of railroads, would not live to see the great achievement. In Ambrose's hands, this enterprise, with its huge expenditure of brainpower, muscle, and sweat, comes to life. The U.S. government pitted two companies -- the Union Pacific and the Central Pacific Railroads -- against each other in a race for funding, encouraging speed over caution. Locomotives, rails, and spikes were shipped from the East through Panama or around South America to the West or lugged across the country to the Plains. This was the last great building project to be done mostly by hand: excavating dirt, cutting through ridges, filling gorges, blasting tunnels through mountains. At its peak, the workforce -- primarily Chinese on the Central Pacific, Irish on the Union Pacific -- approached the size of Civil War armies, with as many as fifteen thousand workers on each line. The Union Pacific was led by Thomas "Doc" Durant, Oakes Ames, and Oliver Ames, with Grenville Dodge -- America's greatest railroad builder -- as chief engineer. The Central Pacific was led by California's "Big Four": Leland Stanford, Collis

Huntington, Charles Crocker, and Mark Hopkins. The surveyors, the men who picked the route, were latter-day Lewis and Clark types who led the way through the wilderness, living off buffalo, deer, elk, and antelope. In building a railroad, there is only one decisive spot -- the end of the track. Nothing like this great work had been seen in the world when the last spike, a golden one, was driven in at Promontory Summit, Utah, in 1869, as the Central Pacific and the Union Pacific tracks were joined. Ambrose writes with power and eloquence about the brave men -- the famous and the unheralded, ordinary men doing the extraordinary -- who accomplished the spectacular feat that made the continent into a nation.

Chronicles the epic journey of Lewis and Clark across uncharted wilderness to the Pacific Ocean, in a narrative that incorporates entries from the explorers' journals and a new preliminary essay on making a filmed recreation.
